The Honorable Michael K. Powell
Chairman
Federal Communications Commission

May 21, 2003

Dear Mr. Powell,

I urge you to NOT relax the broadcast ownership rules that currently protect American citizens from media monopolies. Your proposed changes would let giant companies gain even more control of radio and television news and information in communities across our nation than they do now.

Whole communities, and even whole regions and states, could be dominated by one media company which could then decide which viewpoints to allow on the air and which to censor. The American people deserve to hear various points of view on important issues in order to have a complete understanding of those issues so as to make informed decisions when those issues affect their lives.

For the sake of our democracy and our ability to hear all points of view on any issue, I urge you to continue the broadcast ownership protections that have, for many years, helped insure an informed public in our country.

I urge you not to relax the broadcast ownership rules that protect American citizens from media monopolies.

These proposed changes would pave the way for giant media conglomerates to gain near-total control of radio and television news and information in communities across our nation. And many of the corporations that are now lobbying the FCC to relax these ownership rules already have a known track record in attempting to keep opposing viewpoints off the air.

The American people deserve to hear more than one point of view on important issues. Therefore, for the sake of our democracy and our freedom, I urge you to continue the broadcast ownership protections that, for decades, have helped to ensure a healthy political debate in our country.

Sincerely,

Mr. Michael Nallen
